Dear Fadi Debbas:

I want to express my gratitude and strongly recommend the exceptional professional services of POWERCATCH, INC.

On August 8, 2011, new lighting was installed in Aldo's Ristorante. Immediately, staff members praised the visible and remarkable difference. It has provided us with cleaner and clearer lighting at a less expensive cost. This lighting better assists all of our kitchen staff to an enhanced environment for food preparation. We noticed the vast difference between before and after installation that we decided to also change the lighting at our office location.

Thank you once again for the suggestion to change our previous lighting and the excellent installation. We are very pleased with our results at both locations.

Sincerely,

Deborah Kassir
