To whom it may concern:

The energy saving lights installed through Fadi Debbas have been a great small investment. No doubt have they saved us money. There has been a huge reduction in our monthly power bills, which means high energy savings. The company was also able to become part of the Dominion Energy Conservation Program, in which receive a yearly rebate. The lights are brighter and maintenance on them is almost nonexistent.

A handwritten signature in cursive script that reads "Jennifer Payne".

Jennifer Payne
